

<i>Title of the measure:</i>	TER-BEL5	<i>Federal government - Minimum efficiency requirements for new central heating boilers</i>
-------------------------------------	----------	--

General description

In accordance with EU Directive 92/42/EEC on efficiency requirements for new hot-water boilers, Belgium has changed its national legislation: the Royal Decree of 18 March 1997 sets efficiency requirements for new hot-water boilers fired with liquid or gaseous fuels.

Impact evaluation

No quantitative impact evaluation is available, but given the current standards achieved in boiler design and construction the impact in 2020 can be considered as negligible.

Interaction of measures
