

<i>Title of the measure:</i>	Energy refurbishments of buildings of the public sector
-------------------------------------	---------------------------------------------------------

General description

Since 2013, energy renovations of central government buildings have started, in compliance with the requirements of Article 5 of Directive 2012/27/EU. The first stage involved the deep renovation of two buildings and individual energy saving measures in two more buildings. Since April 2016 a new governmental committee has been formed, which is responsible for planning the future energy refurbishments of central government buildings.
